

**VocabularySpellingCity** was initially created to save teachers time by automating spelling tests and to empower students to study independently through engaging game-based learning activities. Nearly a decade later, VocabularySpellingCity has expanded to include a wide variety of study tools for developing strong vocabulary skills and best practices for effective vocabulary instruction. Research has proven that these are key factors in improved reading fluency and comprehension.

  - Chose from Pathways or Pathways 2.0 (or both)
4. Select Import next to each list you wish to import into your own account.
